Disabled Rehabilitation Centre

"If anyone has been looking for an ethical and professional NGO in Ghana, then I can personally recommend Ikando and its leadership."

Ralph Stone – November 2006.

Got more questions? Request a call back. Email call@ikando.org including your name and telephone number and we will call you back.

"Thanks so much for all your support during my stay, you went beyond the call of duty. It was an amazing experience."

Lorna Williams

The Accra Rehabilitation Centre (ARC) is an Institution established by the Government of Ghana under the auspices of the Ministry of Manpower Youth and Employment through the Department of Social Welfare. The prime objective of the Centre is to train all categories of Persons with Disabilities (PWDs) in Employable Skills to enable them live independent and dignified lives in Society.

The Centre has been contributing positively towards National Development by harnessing the human resource potentials of a segment of Society that otherwise would have been marginalized. Since its inception in 1962, it has trained over eight hundred (800) persons with disabilities while training is ongoing.

In recent times, the focus of the Accra Rehabilitation Centre has been expanded to include Commercial Production and Marketing as a way of generating income to supplement government funding for the Centre and also to help market the products of trainees in order to increase their income levels.

However, unavailability of adequate resources posed a challenge to this Programme and therefore the situation does not enable the Centre to reach out to most disadvantaged Persons with Disabilities on the street of Accra and the surrounding communities.

Currently, there are thirty (30) trainees who are undergoing employable skills in the following trades:

- Carpentry / Joinery
- Tailoring / Fashion Design / Sewing
- Rural Craft
- Shoe Making
- Orientation / Mobility Training.

Their Aims are:

1. To train all categories of Persons with Disabilities to make fullest possible use of their capabilities.
2. To provide them with employable skills training to enable them live dignified lives and contribute to national development.
3. To provide them any additional daily living skills/ Medical care.
4. To minimize the incidence of begging for alms amongst the disabled.
5. To reduce the menace posed by street beggars to tourists and other road users.

The application process to gain entry to the centre is quite rigorous. Anybody with disability who intends to train at the Centre contacts the nearest social welfare office. The field officers will conduct an investigation into the person's background and write Social Investigation Report together with some other documents and forward it to the Regional Office. The Regional Office on the other hand will compile all the reports and then forward them to the Centre for admission. The Centre finally conducts an interview and admits only those who pass the interview for training.

The volunteer

They are looking for someone to help with teaching the students at the centre general sewing and/or tailoring techniques and to help develop new product lines. It is vital for the existence
